

COURSE BROCHURE

Freetown Teachers College was founded on the 9th November, 1964 with the joint support of the Ministry of Education Science and Technology and the Anglican Mission.

Freetown Teachers College is a bimodal institution, offering the regular college based face-to-face learning and Distance Learning programmes. At the certificate level, the college is offering Teachers Certificate (TC), Higher Teachers Certificate Primary (HTC-P) and Higher Teachers Certificate Secondary (HTC-S).

All three programmes run for a duration of three years each and both College Based/regular and Distance Education students go through the same courses, same duration, same examinations and same certificate. The difference between these two is the mode of delivery: One by distance and modular system of delivery and the other by daily conventional face-to-face lectures.

Freetown Teachers College is operating the Distance Learning Programmes at nine centres, namely Koidu, Sewafe, Kambia, Kailahun, Moyamba, Mattru Jong, Mile 91, Pujehun and Freetown as the main centre.

ADMISSIONS FOR 2021/2022 ACADEMIC YEAR

Applications are now open for prospective applicants wishing to gain admission into Freetown Teachers College for the 2021/2022 Academic year.
